Claims 1-3, 5-8 and 10-19 are allowed over the prior of record and in light of applicants' arguments. Claims 4 and 9 have been canceled.

The amendment filed on 05/18/2006 has been entered in the file.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Please change the dependency of claims 11 and 13-16 from "claim 9" to --claim 10--.

The following is an examiner's statement of reasons for allowance: The prior art of record to Matsushima (20040148328) discloses a SOAP envelope embedded in a HTTP request to be transmitted to the HTTP server describes a client command or a response to a server command (par 0264).

Wheeler (20030204626) is concerned about efficiently matching incoming packets to previously forwarded outgoing packets within a network node to ensure a response received by a network node corresponds to a previously forwarded request (see abstract; par 0005).

However, the prior arts do not disclose or suggest a communication scheme which allows Internet access to selected services behind a corporate firewall on a corporate Intranet with a publisher on the Intranet in communication with the Intranet web services and a listener on the Internet and is responsive to select requests from an

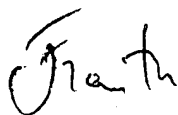

Internet user which are embedded in responses received from the listener responding to queries from the publisher.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
